### **INFORMATIONAL PICKETING AT ROTARY LAKE ERIE CONFERENCE**

Members of Advocates for a Clean Lake Erie will be at the entrance to the Seagate Convention Centre at 7:30am, Friday, with information to alert conference-goers that the program and list of speakers is a “watered-down version” of what’s needed for Lake Erie, specifically, that there is over-representation from Farm Bureau and corporate agriculture interests and under-representation from environmentalists.

More information to follow.
