LAKE ADVOCATES TO PICKET CITY COUNCIL COMMITTEE MEETING

Monday morning, at 9:30am, members of Advocates for a Clean Lake Erie will picket outside Government Center, prior to a Toledo City Council Water Quality Committee hearing beginning at 10:00.

A banner asking: “Which Side Are You On?” will express the central theme, as we demand City Council pass a resolution supporting an “impaired” designation for all the waters of Western Lake Eriea.

Lucas County Commissioners and the City of Oregon have already passed such a resolution. This past week, the State of Michigan did so for its portion of the lake. Citizens want to know which side Toledo government is on: supporting the best way to get the lake cleaned up, or supporting the Big Ag interests opposed to impairment status which have apparently taken over the Ohio EPA.
